ABOUT Us

SABH CONSULTING

SABH Consulting is an Abu Dhabi, UAE, based boutique strategic advisory services firm comprising of senior industry veterans with extensive experience in Corporate Finance & Banking Advisory, Human Resources Consultancy Services, Management Consultancy Services, and Financial & Economic Feasibility Services.

Our key team members are practitioners, not consultants, who have held numerous C-level roles in both public and private companies across various industries. We have a long track record of successfully navigating through the most challenging situations and bringing stability to companies facing significant financial and operational challenges and subsequently helping them achieve extraordinary results.

In addition, we help companies deploy various strategic and tactical initiatives by developing and implementing comprehensive profitability and working capital plans with a key focus on unlocking cash, employing alternative financing arrangements, and identifying earnings enhancement opportunities.

Partnering with our clients' shareholders and management teams, we help them achieve their strategic objectives, manage transformations to create exponentially increasing market value, as well as advising them on public and private capital raising, debt funding, mergers, acquisitions, divestments and recapitalizations.

Our ability to provide independent advice, deep understanding of the industries we cover, extensive network and contacts across the GCC and MENA ecosystems, flawless deal execution track record and capacity to complement local presence with a global perspective make us an invaluable partner to our clients.

MANAGEMENT CONSULTING ADVISORY SERVICES

Our Management Consulting Advisory Services are designed with one simple objective: to help our clients to improve their performance. Clients will always be offered objective advice and full access to our specialized expertise. We work with our clients to identify, transfer and implement industry best practices for their businesses.

Our team has significant experience in organizational change-management assistance, development of coaching skills, process analysis, technology implementation, strategy development, or operational improvement services. We are specialist practitioners who can not only advise you on what to do but will also be a part of the delivering the answers and solutions. We can help you to make better decisions, reduce costs, build a more effective organization and develop appropriate strategies.

We commit to deliver the value we promise and that our clients expect - through faster time to market, lower costs, improved cash flow or higher revenues. This will help our clients achieve new goals, penetrate new markets, implement successful strategies or simplify legacy systems and introduce new technologies.

Our Management Consulting Advisory Services encompass:

- Financial Management
- Risk Management
- Strategy Articulation & Implementation
- Operational Management
- Business Transformation
- Technology
- Executive Coaching & Mentoring

However beautiful the strategy, you should occasionally look at the results.

Winston Churchill
